# Harvest operations

Thinking of working in the grain harvest this season & have proven experience with tractors?  
Want to learn to operate a tractor & chaser bin to safely provide support in a harvest situation?

Grain harvest workers need to safely operate and maintain sophisticated machinery and equipment while maintaining high standards of product hygiene. This 2-day course is aimed at participants who already possess proven tractor skills and who would like further training in managing a tractor and chaser bin, and other relevant machinery in a harvest situation.

**Note:** You must be able to drive a tractor to attend this course. If you require basic tractor operations training, attend our 1-day course **Operate and maintain tractors**.

**The course aims to develop knowledge and skills in:**

- the processes of grain harvest from the field to bulk storage
- basic operational principles of a tractor and chaser bin, combine harvester, grain cartage, handling and storage
- introduction to WHS on farm

**Duration:** 2 Days

**Indicative Fee:** \$950 GST-free (Nil to eligible applicants)

**Units of competency**

- AHCBAC203 - Assist with agricultural crop harvesting
- AHCMOM203 - Operate basic machinery and equipment

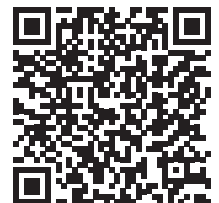

**Accredited training**

This course is aligned and delivered against vocational education and training requirements. Successful completion of assessment tasks will result in achieving a Statement of Attainment.
