Introduction to tractors for harvest operations

Thinking of working in grain harvest this season and need to learn basic tractor and machinery skills?

This course is designed to provide an introduction to grain harvest operations including safe tractor operation and safety on farm.

Grain harvest workers need to safely operate and maintain sophisticated machinery and equipment while maintaining high standards of product hygiene. This hands-on, 3-day course is designed to assist people with no prior experience operating farm machinery to gain the basic skills required to commence supervised work operating and maintaining tractors and machinery to assist with harvest operations.

This course is aimed at candidates who do not have proven prior experience in basic tractor operations to access admission to the Harvest Operations Training.

The course aims to develop knowledge and skills in:

- basic tractor operation
- the processes of grain harvest from the field to bulk storage
- introduction to WHS on farm
- basic operational principles of a tractor & chaser bin, combine harvester, grain cartage, handling and storage.

Duration: 3 Days

Indicative Fee: \$1,250 GST-free (Nil to eligible applicants)

Units of competency

- AHCMOM202 - Operate tractors
- AHCBC203 - Assist with agricultural crop harvesting
- AHCMOM203 - Operate basic machinery and equipment

Accredited training

This course is aligned and delivered against vocational education and training requirements. Successful completion of assessment tasks will result in achieving a Statement of Attainment.
